Let your EMOTIONS flow - for maximum EXPRESSION

Emotion and Expression - the two primal forces of music. A good music instrument leads you directly to them. The melodica is such an instrument - full of expressivity and incredibly easy to play. Its piano keyboard is one of the most widespread and easiest ways to articulate melodies and harmonies. Rhythm and dynamics are directly controlled by your breath, naturally ebbing and flowing right through you.

Ocean Melodica and Fire Melodica provide the maximum range of emotion and expression. The frictionless keyboard and easy response make rapid phrases and complex rhythms second nature. With fresh designs and innovative colours, HOHNER, inventor of the melodica, once again sets the standard for the melodica of the future.

Hohner Steve Baker Special Edition

The "Steve Baker Special" uses the same construction as the classic Marine Band 365, but the sound range is extended downwards instead of upwards. The same tuning and bending capabilities traditionally reserved for the first three holes of a diatonic harp have been extended downward over an additional octave. This allows for typical draw bend phrasings to be played over a range of 2 octaves.

365/28CSBS

Steve Baker Special Harmonica Key of C

\$99.95

Hohner Steven Tyler Signature Harmonica

"Aerosmith" front-man Steven Tyler cooperated closely with Hohner in designing this special harp to satisfy his exacting requirements. It features premium reed plates (otherwise used only in the Meisterklasse model), a specially inscribed MS wooden comb and black laser printed covers. The Steven Tyler Signature Series harp is delivered in a attractive high-quality case. A "must" for every Aerosmith fan!

HOHNER HARMONICA AMP

2200

Hoodoo Box 5W Valve Amp

\$699.00

The Hoodoo Box is a 5W, Class A, hand-wired tube amp combo designed especially for harmonica players. Built from the ground up to produce the fat, distorted tones that are the cornerstone of the electric blues harp sound, it is equipped with a single EL84 power tube and a 12 AX7 plus 12 AU7 tube complement in the preamp stage. Its classic spring reverb will add drama and air to your performances while the Celestion Super 8 8" speaker is especially suited to reproduce the entire range of harp tones. The XLR direct output can be used for recording or as a send to the front of house PA.

The Tone control helps you dial in the right sound with a range that goes from Dark to Bright to Scooped, the latter setting giving you a flat-out, heavily distorted sound. The Hoodoo Box will bring out the best in your harp technique as well as your mics. From growls and soulful wailing to dynamic virtuosity, the Hoodoo Box will bring these sounds and more to your harmonica playing.

The roadworthy Hoodoo Box cabinet features classic styling with rugged Tolex covering, white piping, and special Hohner grille cosmetics.

- Hand-wired 5W Class A amp designed specifically for harmonica
- EL84 power tube, 1 x 12AX3 preamp tube, 1 x 12AU7 preamp tube
- Celestion Super 8 - 8" speaker, Spring reverb, Gain, Tone, Volume, and Reverb knobs
- Roadworthy cabinet covered in Tolex, Distinctive retro cosmetics
