GRE-RUG Gretsch Drum Rug

Gretsch's new drum rug gives drummers a way to showcase their kit like never before. The low-profile gray rug measures a generous 5-1/2 feet by 4-1/2 feet to easily accommodate a wide range of drum setups. The rug fiber is constructed of a durable, short cut, industrial nap. Attached to the underside is a 1-1/2" rubber strip sewn along the perimeter of each side to provide grip on smooth surfaces such as concrete and wood. The rug can easily be transported by rolling it or folding it up after use.

Each corner features black nylon triangles that are weighted to prevent corner flap during performance; orange Gretsch logos decorate each of them. The rug's front-center is adorned with an 11" x 10" Gretsch logo printed in white over durable black nylon with orange stitching to give this Gretsch rug a look that is as unique as Gretsch drums.

Rubber backing strip

Features:

- 5-1/2 feet by 4-1/2 feet
- Anti-slip rubber strip on backing
- Industrial strength carpet fiber
- Weighted corners to prevent corner flap
