

Alpha

acoustic
solutions
entry level

The Alpha defines the starting point of serious acoustic amplification at AER. Based on the success and the experience with the Compact 60 we developed an even smaller lightweight model that has no difficulties living up to the rigors of the road.

Open sounding and quick in response this amp masters different ranges and is thus not afraid of bigger instruments.

- 40 watts, dynamic control
- 8" (200 mm) twin cone speaker
- Single-channel, two inputs
- digital reverb
- 6,2 kg (13.67 lbs)

Inputs

input one combined XLR/6.3 mm (1/4") input jack socket as high-quality line- or balanced microphone input stage 24 V phantom power, gain control.

input two 6.3 mm (1/4") input jack socket as high impedance line input stage with pad (high/low attenuation) and gain control.

Tone Controls

equalizer three band tone controls

colour 'mid-cut-treble-boost'-filter

effect digital reverb

Power

power amp 40W / 4 ohms, dynamic control

analog signal processing subsonic filter, low distortion RMS limiter

Speaker System

8" (200 mm) twin cone speaker

Features

headphones, line out, DI-out, external effect loop via send and return, footswitch (internal/external effect on/off)

Accessories

padded gigbag

Specifications

cabinet 12 mm (0.47") finnish birch plywood

finish waterbased acrylic, black spatter finish

dimensions 260 mm x 265 mm x 235 mm (10.24" x 10.43" x 9.25"), HxWxD

weight 6,2 kg (13.67 lbs)

Can be combined with

AG 8, AS Q8
