## LTD 2015 RENGE-SO

The LTD-2015 is a special expression of more than 50 years of tradition and craftsmanship instilled in our talented builders who create Takamine Guitars.

The fingerboard and pickguard are artfully adorned with delicate imagery of the flower called RENGE-SO which symbolizes the Gifu Prefecture in Central Japan. This flower grows at the foot of the Takamine mountain, which provided the original inspiration for our Takamine Guitar name and has long served as its ancestral home. The graceful RENGE-SO adorns this elegantly appointed instrument with the spirit of Takamine and its Japanese homeland.

We hope you draw as much inspiration from this guitar as we have from the many gifted musicians who choose Takamine to create their individual musical voice.

The Takamine LTD-2015 guitars are built in limited quantity with a combination of design and features that will never be duplicated.
