

THE HOHNER JOHN LENNON SIGNATURE MODEL

Hohner has had a long relationship with John Lennon and The Beatles, dating right back to the early days of Beatle mania. Now, by special arrangement with the John Lennon estate, Hohner presents a limited edition John Lennon Signature Series harmonica. The instrument features reproductions of John's signature and 5-colour self-portrait on a specially engraved white cover plate. It also features a transparent acrylic comb, screwed construction throughout and MS style reed-plates.

Available in the key of C only.

For the first time in Hohner's 157-year history this harmonica will feature white cover-plates and the Hohner name written in a rainbow of colours instead of the traditional red or black fonts. It continues the tradition of specially constructed Signature series instruments, and is ideal for players, collectors, hobbyists and fans alike.
